PROFESSIONAL EXPERIENCE

Sep. 2021 Present :: **CREDERA | DALLAS, TEXAS**
User Experience Designer

Credera is a global, boutique consulting firm focused on strategy, transformation, data, and technology. Here I work within the design practice of an extremely talented, driven, and ever-expanding user experience team. My roles here are geared to the client's needs. From wireframes and user flows to high resolution production-ready solutions.

Jun. 2019 Sep. 2021 :: **KODDI | FORT WORTH, TEXAS**
User Experience Designer

Koddi, one of the nation's faster growing ad-tech companies, is where I began my career after college. Here I worked as their sole UX designer, alongside product, engineers, and sales to deliver high quality mock ups and prototypes. This role required extensive design research, engaging presentations, and a true collaboration both internally and externally.

Aug. 2017 Jun. 2019 :: **UNIVERSITY OF NORTH TEXAS | DENTON, TEXAS**
Lead Print & Digital Designer – Dance & Theatre Department

Lead department designer for all promotional banners, yard signs, web-media, and digital signage around the Dance and Theatre buildings. This includes creating interfaces for large informational touch-screen kiosks, motion graphics for digital signs, social media images, as well as an array of other print medias.

Jun. 2016 Aug. 2017 :: **UNIVERSITY OF NORTH TEXAS | DENTON, TEXAS**
Assistant Print & Digital Designer – Dining Department

Working with a team of designers, I helped create an array of projects centered around dining promotionals, menus, nutritional information, and wall-art. As I grew within the department I began shifting my focus more towards the university's union digital signage which required a solid understanding of both user experience and captivating motion design.

GENERAL OVERVIEW

Hello, the name is Avery, and I'm an outdoorsy, traveling-obsessed, User Experience Designer. My passion for design stems from my first computer where I spent hours designing websites on Microsoft Paint just for the fun of it. I carried this drive through high school and college, there I was able to orient what I loved into a life-long career. Since then I have continued to grow and evolve within this field through work as both a solo-designer and team player. I am thrilled for the future of UX and cannot wait to see where it takes me next.

EDUCATION

Aug. 2015 May 2019 :: **UNIVERSITY OF NORTH TEXAS | DENTON, TEXAS**
